

# KBC Care instructions

## Care instructions for laminate fronts

Laminate fronts can be cared for using household and commercially available cleaning products. Do not use any scouring products.

Depending on the degree of soiling, apply the cleaning product diluted with water. Use a soft cloth for this purpose. The residual cleaning agent should subsequently be removed with water and the doors should be wiped dry.

Stubborn stains such as remains of paint and glue or splashes of fat can be easily removed with commercially available laminate cleaners. Test the latter first at an inconspicuous spot before using for the first time.

Vinegar-based cleaner, nitro or artificial resin dilutions in addition to nitro-based cleaners are unsuitable for cleaning the surfaces. Never use a steam cleaner!
